

# THE STEEL TRIBUNE

2014  
V.1

## ABOUT THE MAGAZINE

In any industry, change is a good thing. Change encompasses what the company has managed to become from its pillar to its now growing dynasty. The new Steel Tribune represents the transition the company is going through. It is breaking free from contemporary practices to provide new breed of security services to different communities. The group aims to publish this magazine every end of the year to present to the people the achievements and recognitions the different companies managed to receive throughout the year. The magazine, however, does not turn its back to the circumstances of the past, but rather builds on them to be the guiding principle towards where the company wants to go. We dedicate this magazine to the people who made everything possible, through their unending support and trust the company managed to establish in the industry. The magazine also serves as a testament to the contribution of the men and women who dedicated their service and efforts to live out the brand of service Gruppo Eslabon is known for.

# WORDS FROM

It is not easy to be in a business that deals with safety because of the growing challenges in our society, but we accepted the responsibility for the sake of our people. The group is considered as one of the pioneers of the industry, and even today lives out to the same brand promise for decades. It is with great pride that we claim this group grew from humble beginnings to where it is now. It would have not been possible without the trust and efforts of our people and our partners who believed in what we offer. We reiterate our promise to continue our pursuit of excellence in security by providing quality service to them.

When we started the company, we never thought that the result would be this grand. Our group is a testament to the saying, "great things come from humble beginnings." The difficulties we faced during our formative years defined the kind of brand our company wanted to imprint in the minds of Philippine society. Guided by these principles, we will continue to promote our signature service to our people who have entrusted their lives and properties to us. Loyalty, Quality and Dedication - slogans that represent Gruppo Eslabon. Our calling. Our promise.

Dante A. Eslabon

# THE FOUNDERS

“All men are capable of doing demonic acts. It’s just a matter of what trigger those subjective actions. Security practitioners should therefore be intuitive to anticipate inhuman acts before these commence.”

It has always been our vision to provide not only our clients but the Filipino people with quality security service. Our company believes the right of security must be felt by everyone no matter what their role and status in life be. They deserve to feel safe. The life blood of Gruppo Eslabon is security of our people. We know that our chosen industry is not easy because of the chaotic society created by dark minds, but we know someone has to take that risk and attempt to provide protection to different classes of people.

Our companies vow to work and strive to live up to the high standards of the market and continue being pioneers in the safety and security industry. We will make sure that all our equipments and technologies are at par with the stringent standards needed. We integrate world-class security measures to best serve our people and those who entrust their lives and properties to us.

Ferdinand A. Eslabon

# ABOUT THE COMPANY

## The Foundations of Our Character

### VISION

To be the organization of choice of quality-minded individuals and discriminating clientele in the delivery of quality service and quality people.

### MISSION

To provide service to clients with the highest standards they deserve, guided by foresight, experience and skills in managing risks, to the end that their assets are well protected.

### CODES

Honor and Loyalty

### OBLIGATIONS

To protect, and if duty compels, fight-even at risk of death.

# HARD AS STEEL: GRUPPO ESLABON THROUGH THE YEARS

A group of company bound by the core intent of providing quality security services to our people and our clientele, Gruppo Eslabon and its subsidiaries for more than a decade withstood the challenges brought on by its sworn duty to the people. From its humble beginnings Gruppo Eslabon established its own brand of quality security services in the industry, the group constantly innovate its services to keep in step with both the demands of the market and the benchmark set by its competitors.

Gruppo Eslabon, the brainchild of creative and innovative professionals, was primarily established as an umbrella

## THE CALL OF DUTY

“Honor and Loyalty”, values in which the group circulates its primary obligation to the customers who entrust both their properties and lives to the services offered by the group.

organization that caters to the safety and security of our people. The group upholds the principles of human and legal rights in accordance to the laws provided for by the PNP. The group is sub-divided into six different companies offering diverse services but cored to providing quality

security service.

### Shooters Security Services, Inc.

Motivated by the desire to upgrade the quality of security service brought about by the need of the burgeoning society for well-trained, disciplined and multi-skilled security forces, the Shooters Security Services was integrated in the market. Since its inception on July 1996, the company spread its client lists from just one to over 100 establishments. Shooters has been catering to a wide-array of clients including luxurious hotels, high-rise offices, residential condominiums and transnational and multinational corporations. The phenomenal growth of Shooters was due mainly to its upmost commitment to personalized service and management. With a 98% retention rate ever since its foundation, the company proved to be one of the best security providers in the country.

### The 1st Eagle Guard Security Services.

Born out of the many years of experience in the security industry, the 1st Eagle Guard Security Services was founded in March 22, 2006. Conceptualized in 1996, it was molded from its parent firm, Shooters Security Services due to constraints of the number of its guards. To date, the subsidiary has established its separate identity in the market as more and more clients are putting their safety and trust on its shoulders. It is manned by officers with wide knowledge and experience in areas of extending

assistance to clients through planning of realistic and cost-effective risk-management to its clientele.

**Eslabon Security Agency.** Derived from the English word ‘Steel’ that connotes strength and stability, the Eslabon Security Agency strives to be a symbol of dominance, safety and security. The security agency is known as a ‘chip off the old block’, ‘bearer of a tradition’ and ‘the youngest of the brood.’ The promising new addition is a key extension of to the illustrious forebearer the Shooters Security Services.

### Water Dragon Protective & Detective Agency.

Water Dragon (WD) pioneers in extending comprehensive and professional Executive Protection and Security Solutions to high value persons in both the business and other VIPs in the Philippines. The company is known for providing the optimal, hassle-free environment for customers that need to focus on their business or leisure. Since its incorporation, WD’s reputation has served as the bench-mark in the high standards and objectives of the security industry. The company offers proven methodology and principles that ensure clockwork precision-driving expertise in performing the tasks at hand.

# THE BIRTH OF A WATER DRAGON

In line with Gruppo Eslabon's reputation of pioneering security services in the Philippines, the Water Dragon Protective & Detective Agency was born. The sub-agency is a brain-child of years of formulating the perfect method of offering professional

protection to valuable individuals in Philippine Society. With the use of its signature security offering, WD personnel are able to give protection to customers while offering them a hassle-free environment. The agency constantly conducts skills training in

order to harness its people. The tedious training sessions prepare WD personnel for the gravity of responsibility they will perform. WD offers nothing but the best personnel and lives out to its promise of providing quality service.

# WATER DRAGON, THE PIONEERING COMPANY IN EXECUTIVE PROTECTION

## ESLABON SECURITY AGENCY CHOSEN TO PROVIDE SECURITY TO 4 NEW CLIENTS

Due to the growing trust on the brand of service offered by the group of companies under the Gruppo Eslabon, Eslabon Security Agency added four new high-end clients. One of the companies that sealed the deal with the security agency is the F1 Hotel Manila located in Taguig. The hotel is strategically located at one of the business-oriented areas in Manila. Another deal secured by the agency is with Twin Oaks Greenfield District Mandaluyong, also located in a strategic area where businesses are rapidly rising. Bellevue Hotel Alabang and B Hotel also chose Eslabon Security Agency as its security provider.

# GE SECURES CONTRACT WITH CITY OF DREAMS MANILA

GE as its crowning glory secured a highly-coveted contract with the City of Dreams Manila. The said establishment is an integrated resort wholly owned and operated by MCE Leisure (Philippines) Corporation, a subsidiary of Melco Crown (Philippines) Resorts Corporation. Located at the gateway to Entertainment City, the resort combines electrifying entertainment, an amazing array of luxury accommodations, regional and international dining, together with designer brand shopping as well as a spacious and contemporary casino. The multibillion pesos project is reported to feature an array of entertainment and other attractions including a high-end shopping mall, three five star hotels, a spa and restaurants that will cater international cuisines. The project is strategically located five kilometers away from the Ninoy Aquino International Airport (NAIA).

# CCTV OPERATOR & 3 GUARDS COLLABORATE TO ARREST PROFESSIONAL THIEVES

Closed-circuit television (CCTV) camera operator Henry Banhao's attentiveness thru the combined efforts of three other security personnel foiled an attempted shoplifting by two professional thieves at Robinson's Supermarket in Roxas City.

Banhao, who was the designated CCTV operator, has been vigilant at observing two suspicious women, Josephine Lavega (also known as Rose Dron) and Gloria Naelga. The two suspects were seen roaming around the Milk and Baby section aisle of the supermarket. The two began to show actions that made Banhao suspicious which prompted him to advise the security personnel who was roving in the area in plain clothes to monitor the suspects due to their unusual movements

in the area.

Naelga was on her way out of the supermarket when she was approached by a security personnel and upon inspection of her bag unpaid items were found.

Lavega, seeing that her companion was caught with the stolen goods, tried to escape but was later apprehended by security officers Junnifer Arabia, Ronel Bendico and Lowill Fernandez at the second floor of the Robinson's Mall.

Both suspects were later turned over to the Roxas City Police District for further probing.

## ESA PERSONNEL NABS THIEF AT CLMMRH

The newly designated Eslabon Security Agency (ESA) proved its brand of service after nabbing a thief only two weeks guarding of the Corazon Locsin Montelibano Memorial Regional Hospital (CLMMRH) in Bacolod City last May 8.

A personnel of ESA caught a suspected thief at CLMMRH following the suspect's attempt to victimize an unsuspecting health worker at the

hospital. It was reported that the worker sought help from the ESA personnel after Evelyn Uy (suspect and member of Lifeguard Security Agency) took some personal belongings. Prior to the arrest a brief commotion was caused by the incident as Uy tried to escape. The suspect was also reported to be carrying a homemade handgun.

The ESA personnel, however, was prompted to action and initiated Uy's

# 1ST EAGLE TO PROVIDE PROTECTION TO MEXICAN EMBASSY

1st Eagle signs deal with the Mexican Embassy to provide security services not only for the institution but for the ambassador himself. The posting of guards commenced December 1, following the provisions of the agreement by the two parties. The Mexican embassy in the Philippines is situated at Legaspi Village in Makati City.

surrender after trapping the suspect inside the vicinity of the building. The quick action of the ESA personnel prevented further bloodshed. The suspect was properly turned over to the Bacolod police who in turn filed charges.

Uy was a member of the Lifeguard Security Agency (LSA) from whom ESA took over operation from, following the decision of CLMMRH administration's termination of its services.

NBI Personnel conducting inventory of seized items

Methamphetamine "Shabu"

# 1ST EAGLE GUARDS AID NBI BUST DRUG LAB

A simple serving of an arrest warrant turned into a drug buy bust as the 1st Eagle Guard Security Services Inc. personnel aided the National Bureau of Investigation (NBI) officials to put an end to the illegal operation of an alleged Shabu laboratory located at the Lee Tower Condominium in Binondo, Manila.

The original plan of the NBI operatives was to serve an arrest warrant issued by the Manila Regional Trial Court Branch under Judge Sarah Alma Lim to Jaime

Uy Chua. Chua was reported to being sued for violation of Republic Act 9165 or the Comprehensive Dangerous Drugs Act of 2002.

Based on the incident report filed by Security Officer Dexter Tambot, at 12:30 p.m an NBI team arrived at the premise of the condominium to serve an arrest warrant against Chua, who was then residing at Albert So's unit.

The NBI team presented their credentials and arrest warrant to the 1st Eagle

Guards who then assisted the NBI in their search of the suspect in the condominium. However, despite all efforts, the NBI officials failed to arrest target person, Chua, but invited Albert So for questioning for alleged violation of RA 9165 after illegal drugs were found in his unit.

# ALERT DVA-T1EGSS SECURITY PERSONNEL APPREHENDS WOULD BE AKYAT-BAHAY ON NEW YEAR'S EVE

As the country prepares to usher in 2015, Michael Magbago of Taytay, Rizal has a different & sinister plan, using the Ayala Creek as his passage, he was slowly making his way inside DVA premises to steal from the houses of residents currently away on holiday vacation. His plan was however foiled by alert security personnel, namely, SO Jaime Carbonnel & SG RZ Gologan.

Magbago was first spotted around 6 pm, when he made his way further inside DVA, the team made their move to apprehend him, he tried to evade arrest by running, but was eventually captured, he was then turned-over to PNP Makati-CID. For their feat, Carbonnel and Gologan will be recognized thru cash incentives (Php 10k) and commendation letters by GE.

---

## APPREHENDED THIEF BY 1ST EAGLE SENTENCED TO PRISON

Following the apprehension of Jonelbert Andaya by a 1st Eagle officer last October 9, the accused was finally given his sentence for the crime he committed. The suspect was caught attempting to steal from the Little Baguio Terraces.

The suspect discovered to be as one of the laborers of one of

the contractors, JD Bec Construction, of the establishment. A security officer was conducting the routine frisking on all employees who were leaving the vicinity. After the discovery of folder copper in his possession, Andaya was turned over to the police for proper disposition.

---

## LADY GUARD APPREHENDS R.A. 10591 OFFENDER

Following the standard operational procedures of her post, lady guard Nursiba Saidul apprehended Edgar Fundal, an employee of the Golden Bay Restaurant for carrying a firearm. Saidul acted upon the policy of the establishment that all employees must undergo body frisk and bag inspection when entering and exiting the vicinity.

Upon the inspection of Fundal's belongings, Saidul discovered that Fundal carried a 45 caliber Colt pistol and failed to present necessary license and permit to carry. The lady guard was quick to radio her supervisor Leo Nicholas to address the concern.

During the questioning, Fundal defended himself by saying he had to carry the firearm. He said that it was for the purpose of protecting himself after an altercation with one of the Chinese workers of the restaurant.

Despite the explanation Fundal was brought to the police precinct where he was charged with possible violation of illegal possession of firearms per Republic Act 10591 or the Comprehensive Law on Firearms and Ammunition Act of 2014.

## LOADED TRUCK APPREHENDED AS CULPRITS ATTEMPTED TO BRIBE 1ST EAGLE OFFICERS

Last November, a blue canter truck loaded with scrap materials at the Uptown Mall construction site refused to stop when flagged down and was heading towards the main gate. 1st Eagle Guard, Quiming, approached the driver of the vehicle and asked for a gate pass. Instead of showing a gate pass, the driver attempted to bribe the stationed guard with 2,000 pesos. The guard refused to take the money and immediately radioed for assistance.

Upon their arrival, the other officers questioned the driver, but he did not cooperate. The driver was later on identified with the help of his company ID as Deogracias Udiong of Udiong Contractor Services. As the discussion with the driver went on, Erwin Lipon, a Safety Officer of Asiatec arrived at the scene

and attempted to intervene. He took the P2,000 from Udiong and attempted to again bribe the officers. The officers yet again refused to give in to the bribe.

Both Udiong and Lipon were apprehended for bribery and bringing out Megaworld property without necessary documents. Deogracias [Udiong] suddenly fainted during the processing of the incident. He was ordered to be brought in St. Luke's Hospital. However, Deogracias managed to escape with the help of his nephew, identified as an employee of the Udiong Contractor Services, who arrived in the crime scene. Lipon was turned over to the police while Deogracias was placed at large. Among the first people to respond in the crime incident was GE's chairperson Ferdinand Eslabon.

## ***SUPPORTING MEGAWORLD'S ASSET PROTECTION NEEDS***

### 300,000 WORTH OF HIGH-VALUED WIRES FOUND INSIDE SCHOOL SERVICE INTERCEPTED BY SHOOTERS

A L-300 school vehicle fronting St. Theresa's Novaliches tried to smuggle high-valued wires out of the village. The vehicle driver attempted to exit Palm Tree Villas' gate but he caught the attention of the stationed guard due to odd behavior. The guard immediately called other officers for support in handling the situation. The suspected vehicle drove away while being escorted by two motorcycles who appeared to be working with the suspects. A team of Shooters' officers led the way for the arrest of the culprits. They recovered the undocumented wires. The two motorcycle riders, however, escaped arrest but the materials that were recovered were turned over to the police officials for further probing.

# THE NEED FOR SECURITY

**T**he Philippines as a society, unfortunately, has integrated the growing need to be protected and be provided with vital services including security. Why unfortunately? The current society that the Filipinos are living in became a jungle where some people at times are forced to resort to commit crimes and even kill others in order to survive. News reports about what is happening in our country's peace order in relation to human and legal rights shed little light on the actual scenario of the crime rates. Yes, crimes are happening everywhere and no one is truly safe. What makes things even more alarming is that perpetrators are becoming smarter and devious in their schemes resulting to a handful of unresolved cases. But as the saying goes, prevention is better than cure, it is important to act now before everything is too late.

Security Agencies in general, provide methods to secure society. Through their wide-array of offered services, clients from all walks of life can hand pick the type of security services they want to receive either it be directly or indirectly. The challenge; however for agencies such as the Gruppo Eslabon is to evolve together with the demands of the market. As what was mentioned earlier, criminal minds are also developing. The greatest source of downfall for the industry is resting on its laurels and letting criminals strike at their most vulnerable points. Technology, for instance has proved its worth in the security business by providing the much needed aid to people. CCTV cameras served as eyes of security personnel that address the limitations of human capabilities.

The need for security challenges individuals and companies to invest on services that will benefit their organization in the long-run. It is vital to select agencies that will deliver genuine service. There are a number of security providers out there in the market that is why vigilance is important in the selection process. Numbers do not lie, it is key to select companies that are proven and tested by both society and circumstances.

Safety has always been placed as a right if not a need of every individual, but due to circumstances the safety of people is put into jeopardy. Undoubtedly, there is a need for security in this state. No matter how vigilant or careful an individual is, he or she is still prey and at times at the mercy of the predators with dark minds.

# DEALING WITH CARJACKING

Reports all-over the news presents a clear yet alarming situation of carjacking in different cities in the Metro. Moreover, the criminals are becoming bolder and braver, committing the crime in broad day light without regard to the possible scenario of someone witnessing their illegal activities. Carjacking is defined as the forceful takeover or theft of vehicle while someone is actually boarding the vehicle usually in transit. Carjacking is different from carnapping as the latter is

defined as taking the vehicle while it is stationary.

The usual modus operandi of criminals is to pretend to be persons of authority such as a police, traffic enforcer or other authority figures in society. They approach their unsuspecting victim and try to get them out of their automotive either by force or tricking them to step out then drifting off with the car. The favorite setting of carjackers is during

the night where they spot drivers along deserted roads because completing the crime is easier due to little possibility of witnesses.

# HOW TO PROTECT YOUR VEHICLE

**Vigilance is key.** Always be alert when people approach you even if they are in uniform. Remember it does not hurt to be careful as crime can strike anyone, anytime and anywhere.

**Vary your daily routes and habits.** It may be good to vary the roads you take to avoid being observed by criminals.

**Always ensure that your car is in good shape** to avoid breakdown especially in deserted areas

**As much as possible avoid traveling during unholy hours.** But if it can not be avoided, it would be best to have someone with you and of course avoid areas that are prone to criminal activities.

**Keep a means of emergency communications (such as an extra phone or radio).** Make sure your family or friends are also aware of where you are going.

# WHAT TO DO WHEN YOU GET CAUGHT BY SOMEONE YOU SUSPECT AS A CARJACKER?

**Stop the vehicle in a well-lighted and populated area.** If the person introduces himself as a person with authority, ask about their credentials and the reason behind them for approaching you. Remember to stay calm.  
**Do not immediately go down of your vehicle,** but if the person persists of you

to get off the vehicle do so but also keep the doors open.

**Keep the engine running and apply the handbrakes**

**Do not anger them and be compliant with the demands,** remember your life is still more important above anything else.

**Try to take as much detail as you can,** such as the details of the crime and features of the criminal/s to speed up the investigation after.

**Allow the criminals to live the premise with the car,** but immediately report to authorities so that it would be possible to track the criminals and even retrieve your property.

**Always remember to secure the necessary documents of the vehicle** If ever it will be retrieved.

Crimes became more dangerous and at the same time innovative. Criminals lurk in every corner of society; even in places people think they are safe. But it does not hurt to know some of the popular modus operandi of criminals.

### 1. SNEAKY OFFICE INTRUDERS

This modus operandi targets office workers; criminals take advantage of a company's down time and typically prey on establishments with little security. The criminals keep their eyes open for any valuable they can take from their victims; the popular target items are wallet, cellular phones and laptops.

### 2. ATM (AUTOMATED TELLER MACHINE) SCAMS

The news has bombarded the public with both reports and tips on how to avoid being a victim of ATM scams. The modus operandi ranges from different methods including using magnetic rulers to trap the money.

Another method used in this scam is when criminals switch ATM cards with fake ones and snickly memorizing the victims pin code.

How is it done? The criminal will approach someone who just withdrew money, then will mention that she left a certain amount of money behind, the person will then follow to the ATM. The criminal will then drop a bill and the person will pick it up, the criminal will use this

opportunity to switch the ATM cards to get his or her hand on the original. When the victim lives the vicinity the person is free to withdraw any amount.

### 3. THE ZESTO GANG

The popular modus operandi especially in public transportation such as buses makes use of distraction tactics. They board the bus and pester potential victims by selling a brand of juice; they then forcefully open the juice and tell the person that he or she has to pay for it because it is already open. The person obliges because unnecessary commotion may arise, while the person is looking for coins, other members of the group sneakily takes the belongings of the unsuspecting victim.

### 4. AIRPORT AMBUSH

The crime is simple; the groups follow the victim's car and repeatedly attack it, until the person has no choice but to get off the

car to avoid other untoward accidents. The criminals observe their potential victims. They pick people who usually depart from the airport at dawn.

### 5. SALISIGANG AND BUDOL-BUDOL GANG

The perpetrators can strike anywhere such as in different establishments, the mall, restaurant, shops and even clubs. The Budol-Budol gang is known to use hypnotism in their target victims and make the victim hand over valuables without knowing what they are doing. The Salisi gang strives in speed and

distraction in getting what they want. They usually dress as someone presentable to make the people unsuspecting of their true nature.

### 6. DUGO-DUGOGANG

The suspects target house helpers by tricking them that their bosses are in trouble or got caught in an accident and in need of money. They will tell the helpers to bring jewelries, money and other valuables to help their bosses.

# FOR THOSE WHO DEMAND THE BEST:

*Crowne Plaza Hotel*

*Holiday Inn Galleria Manila*

*Discovery Shores Boracay*

*The Pan Pacific Hotel*

One of the companies under the Gruppo Eslabon is Shooters Security Services. The main identity of the entity is grounded on the drive to provide and assure quality services to a wide array of clients. It was introduced to society on July 1996, with only one client, but to date, Shooters has grown tremendously and

has embedded its name as one of the leading providers of high quality security in the country. It has and is continuously serving 100 satisfied reputable firms such as deluxe hotels, residential condominiums and high-rise offices, to name a few. The constant progress in their services prompted the birth of the other GE companies

# SHOOTERS SECURITY SERVICES

▲ Shooters' guard in action during a demolition effort at McKinley West

that the nation knows of today.

Shooters ignited the growth of GE's reputation in pioneering of security and other related services. The phenomenal growth of Shooters is said to have been pushed by their commitment in offering personalized service and management to its valued clientele.

With a high 98% retention rate, it has achieved a milestone that GE is truly proud of. Shooters does not stop there. It constantly builds on experience to incorporate innovation in the services they offer. This is of course one of the main reasons why GE, together with the rest of the group, upholds excellence: they believe that everyone deserves optimum service.

# GRUPPO ESLABON GIVES BACK

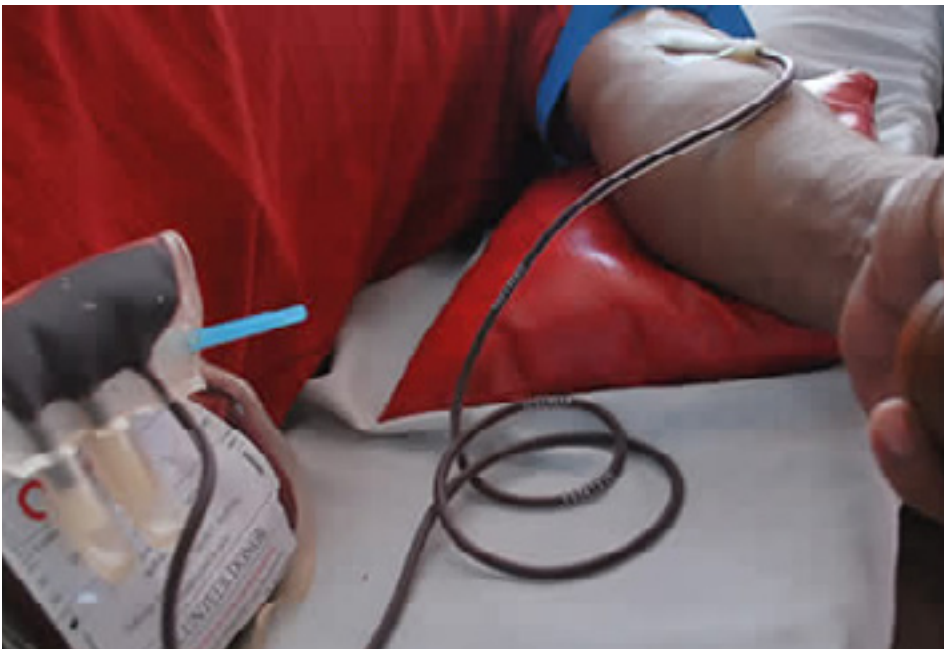

As part of its values as a group, Gruppo Eslabon makes it a point to give back and extend a helping hand to different civic groups and government

## GRUPPO ESLABON ASSISTS PNP IN LICENSING FIREARMS

Gruppo Eslabon extends its assistance to the Philippine National Police (PNP) task of widening firearms licensing. Due to the growing cases of untoward incidents brought about by shooting with the use of firearms, the PNP partners with the private sector to expand its program in promoting responsible carrying of firearms.

# DONATE BLOOD TO SAVE LIVES, GE PARTICIPATES IN BLOODLETTING DRIVE

In response to the invitation of the Department of Health (DOH), Gruppo Eslabon encouraged its employees and partners to donate during the blood collection last September 14 at the GE Headquarters. The group recognizes that its duty is not only enclosed in providing security but also extending aid to the Filipino people as part of its agencies' corporate social responsibility. The event was participated by a hefty number of employees that willingly donated bags of blood in the hopes of extending another person's life. The participation also showcase that despite their 'hard' image, they also have a 'soft' side for our people in need.

## FORMATION OF GE SEARCH AND RESCUE TO HELP THE COMMUNITY DURING ONDOY LIKE INCIDENTS

As part of their growing efforts to extend services beyond the nature of security, the group answered the call to aid communities after the onslaught

of Typhoon Yolanda. The group equipped themselves with boats and other rescue materials that will aid in search and rescue operations. The move is also the group's way

of increasing the competence of their people in such operations training and coordination in times of man-made and natural calamities.

# GE'S 1ST EAGLE BAGS DASMARINAS VILLAGE SECURITY DEAL

*The awarding ceremony held at DVA Pavilion with key DVA officials and Ms. Malou Eslabon, TIEGSS' Chief Financial Officer (far left of the photo)*

Earlier this breakthrough year 2014, Gruppo Eslabon 's TIEGSS was able to secure the deal with Dasmarinas Village. The country's premiere village is a private enclave located in Makati City. The 187.21 hectares property is home to mostly prominent people, hosting also an exclusive school and several embassies.

Later on in the year, thru the efforts of the village manager, Mr. Mamerto Rodriquez, DVA recognized the 1st Eagle Guard Security team during the launching of the Dasmarinas Village Association security detachment's mission, vision and core values, held at Dasmarinas Village Pavilion last October 12, 2014. Key village officials and members participated in the event. The activity aimed to renew the security personnel's commitment to the performance of their duties and responsibilities.

*The 1st Eagle Security Team deployed at Dasmarinas Village*

The company will not stop in offering quality security services to the public, We envision Gruppo Eslabon as an integral part of the society in providing security and protection to those who may need it, today, tomorrow and even in the next generation...
